

ESSENTIAL OILS DATA

Global Extracts offers over 300 oils to suit your needs. These are the types of oils available: standardized blends, wild crafted oils, synergistic blends, CO₂ extracted oils, terpenes, terpeneless oils, folded (concentrated) oils, and natural essential oils. The manufacturers we closely work with are certified by The Soil Association & Organic Farmers & Growers. Because of this, we can offer a wide range of certified organic essentials oils. Please contact us with your requirements or if you see anything not listed.
